<u>DEPARTMENT</u> ITS (32)	<u>JOB TITLE</u> SYSTEMS PROGRAMMER ANALYST
-----------------------------------	--

NOTE: The level and salary of this position will be determined by the experience level of the candidate that is selected as indicated: Systems Programmer Analyst II: \$25.75 - \$33.48/hour; Systems Programmer Analyst I: \$22.70 - \$29.51/hour. Please see job descriptions of the specific positions for required qualifications of each.

GENERAL DESCRIPTION: The Systems Programmer Analyst provides professional analytical, problem solving and project planning to improve information systems and services effectiveness utilized by Fort Pierce Utilities Authority. Activities require interaction with application development software and operating systems to create/maintain database-centric applications. The position requires an ability to perform independent analysis, communication, coding, and problem solving. Will assist in evaluation, recommendation, and implementation of data procedures to improve efficiency of operational information systems for the utilities.

ESSENTIAL MINIMUM EDUCATION & EXPERIENCE: Graduation from an accredited four (4) year college with major coursework in computer science, information systems, or a closely related field, and nine (9) years of experience of application systems design, programming and analysis at a level equivalent to FPUA's Systems Analyst/Architect, or three years of lead or supervisory experience in a large or mid-sized organization administering a departmental programming applications system. The following certifications are desired: MSA, MCSD, MCPD, EAD and/or CIW Web Development Professional. When considering new job applicants, any combination of education and experience in a computer programming related field may be substituted for the minimum qualifications.

ESSENTIAL PHYSICAL SKILLS: May require announced or unannounced overtime work and the ability to respond to call-out work during non-working hours or emergencies. A valid Florida driver license Class E or better is required.

ENVIRONMENTAL CONDITIONS: Works inside and outside, in and out of air-conditioning, confined spaces, darkness, dusty, and noisy conditions.
