PROMOTIONAL OPPORTUNITY

Job Code: # 0033

| <u>DEPARTMENT</u> | <u>JOB TITLE</u> |
|---------------------------------|---------------------|
| ELECTRIC & GAS ENGINEERING (56) | Electrical Engineer |

GENERAL DESCRIPTION: This is advanced, responsible, professional engineering and supervisory work involving complex coordinating, planning, designing, estimating and preparing specifications for the building of electrical transmission & distribution, fiber optic and gas utilities. In addition, must be able to responsibly manage transmission and substation projects. This position must be able to work independently in a multi-project environment. Reports to the Supervising Engineer or designee.

ESSENTIAL MINIMUM EDUCATION & EXPERIENCE: Graduation from a four-year college or university with a degree accredited by ABET in electrical, civil or mechanical engineering. Minimum of two (2) years of experience with an electric utility or a Consulting Engineering firm in utility power engineering is required. Registration as an Engineer Intern (EI) is required or must be able to obtain within 12 months. Registration as a Professional Engineer with the State of Florida is desirable but not required. When considering new job applicants, a comparable amount of training and experience may be substituted for the minimum qualifications.

ESSENTIAL PHYSICAL SKILLS: Moderate lifting, walking, standing, bending, stooping, sitting, light carrying, climbing, correctable vision. Reasonable accommodations will be made for otherwise qualified individuals with a disability. Temporary modifications to provide reasonable accommodations do not waive any essential functions of the job requirements.

ENVIRONMENTAL CONDITIONS: Works inside and out, fumes, chemicals, uneven surfaces.
